My garden is most like an English cottage garden. I love flowers. I favor organic gardening principles, have no dig flower beds and I compost yard waste. I also love talking to other gardeners about plants. So stop by!

My garden is very much like a country garden, less formality, using flowers that bloom sequentially every two to four weeks. The spring garden relies on bulbs with perennials a mainstay in other areas. For variety, I use annuals to fill in where the bulbs have bloomed.
