Tremont
Situated along the Towpath Trail and just minutes from Downtown Cleveland, the neighborhoods of Tremont and Duck Island are where visitors mingle seamlessly with residents, business owners, artists and entrepreneurs. Tremont is one of Cleveland’s oldest neighborhoods with a rich history dating back to the early 1800s. Today the neighborhood is known for its award-winning restaurants, lively art scene, boutique shops, scenic churches, and fun-filled events. Duck Island is the neighborhood between Tremont and Ohio City and home to the oldest beer garden in Cleveland, Forest City Brewery.

Information Station — Monroe Street Cemetery, 3207 Monroe Ave
Tremont is sharing Information Station with Ohio City. Monroe Street Cemetery is one of the largest green spaces in our area. We have numerous planted areas with beautiful flowers and enough trees to be certified as an Arboretum. Join us during Garden Walk and become a member of the cemetery foundation as well. Enjoy our historic grounds.

1 St. Wendelin Prayer Garden
2281 Columbus Rd
The prayer garden is located behind the rectory where you’ll find an artist commissioned bronze statue of our St. Wendelin, a prayer labyrinth to walk that takes you to the middle and then back out again, many beautiful trees and plants and benches to sit, rest, pray and enjoy some time.

2 2280 W 19th St
Large yard with perennials all around the perimeter and flower beds in the center.

3 2264 W 19th St
Our large urban garden features trees, shrubs, perennials, annuals, and vegetables.

4 2038 W 20th Pl (Duck Island)
Built in 2020, this garden seeks to bring back a little green to this densely redeveloped block. Japanese maples, hydrangeas, and climbing roses provide three seasons of color, while a bevy of young shade trees give hope for a robust tree canopy in the near future.

5 2032 W 20th Pl
Pollinator garden modeled after a pocket park to provide a colorful border to the street with a natural walkway into our backyard.

6 2097 W 19th St
Foodscaping: We focus on planting only edible plants and trees. We have plum, cherry, peach, apple, fig, kiwi, blueberry, raspberry, sage, oregano, tomato and basil. We love to be able to share with our neighbors when we have bountiful harvests.

7 2050 W 18th St
This corner property features a traditional lawn alternative with prairie dropseed grass and the adjacent, resident-maintained bioswale is enhanced with perennials and annuals.

8 2523 W 18th Pl
Front and back yards transformed into native plant gardens in sun and shade along with four raised vegetable beds.

9 Lincoln Park
W 14th St and Starkweather Ave
Lincoln Park is Tremont’s front porch and a place for the neighbors to gather for picnics, parties, weddings, yoga, Arts in August, festivals and more. Since creating flower beds at the park’s gazebo and four corners nearly 20 years ago, the Tremont Gardeners have cared for and beautified the park.

10 Fat Cats Restaurant garden, corner of W 10th St and Thurman Ave, in an open space
Herb garden and flower garden. Also, milkweed plants, raspberries, strawberries, roses, Japanese maple and more.

11 2184 W 6th Street
Small backyard garden

12 W 6th Community Social Garden
2196 W 6th St
Vegetables, flowers and herbs

13 711 Literary Rd
Alison and Kelly love growing and tending to plants inside and out and have created a colorful, jungle oasis in limited space. They hope our neighbors (including the birds and squirrels) can enjoy the aesthetic qualities of their home including the fresh herbs along the sidewalk for tasting.

14 2395 W 7th St
Annuals, perennials, fruit trees, outdoor rooms, mural, and Sophia, the cat who thinks I do this all for her.

15 839 Jefferson Ave
Urban contemporary garden with many trees, bushes, and flowers. Wear sensible shoes due to undulating terrain.
When we bought our house in 2022, it came with a beautifully landscaped flower garden in the front and the back of the house. We had no previous gardening experience so we’ve spent the last few years learning and making it our own. We’re finally ready to join the GardenWalk and welcome any advice!

Renovated gardens on an iconic Tremont century property. Gardens were established in the late 90's, and brought back to beauty in the last 5 years. Heritage roses, garden art and specimen flowering perennials on display.

The ever-changing certified NWF habitat uses regenerative practices to help sustain our drier urban climate. Included are water-wise perennials, native plants, shrubs with a succession of blooms, scents, forage for wildlife and reclaimed hardscape materials. Next up: to capture rainwater within.

Hooper Farm is Ohio’s oldest urban farm, located on the historic Towpath Trail in Tremont. The Godfather of Urban Agriculture! Hooper Farm offers catering, artwork, leadership skills and STEM projects. This year, Hooper Farm is putting in an 18 hole miniature golf course on his farm.

Our “get rid of the grass” garden is flourishing in its 2nd year with a colorful combination of native pollinators and ground covers.

Situated on a small residential parcel, we utilize second-hand objects, container and vertical gardening, as well as houseplants, to create public and private garden spaces for our neighbors’ and our enjoyment.

A deep lot with a mixture of perennial flowers, shrubs and food bearing plants. The front half features shade plants, leading you way back to the sun garden area. My green oasis.

My aquatic themed garden contains a koi pond surrounded by flowers and concrete statues. It’s a beautiful place to relax in the evening.

From nothing but grass when I first moved in 22 years ago, to front and back yards filled with pollinator-friendly plants, many of them native to the area. It’s been a journey! A summer house/garden house provides a great place for shade, conversation, reading, potting plants, and more!

My garden is dedicated to the pollinators and birds, as a feeding and water station, or safe rest area. And a great burst of color in the city! I have 3 water stations in my back yard, which is a shaded woodland retreat. A large variety of birds visit, hummers, too. It is virtually all perennials.

Side lot garden
